

V500 Volvo Cam & Crankshaft Tool Kit (9995454, 9995453, 9995452, 9995451)

This set is designed to properly secure and align the cam- and crankshaft during R&R of cylinder head assemblies on 5 and 6 cylinder engines - also for the proper installation of camshaft cover to the engine head and useful when replacing camshaft seal.

Applicable: 700, 800, 850, 900, 960, C070 Coupe and Converter, S40, S60, S70, S80, S90, V70-2000, V70XC, Xc70, V90, Xc90

Kit incl:

V500-1 and 2,

aligns the camshafts when the engine is set on top dead center

V500-4,

Holding the cam cover to the head, this allows you to remove the cams and install them with even pressure on the valves.

V500-3,

To hold the crankshaft in the top dead center position
(remove the starter and install this tool)

V500-5,

To hold the 2 camshafts in the cover cam, during removal and installation of the cam and cover assembly
